EXECUTION TIMELINE

30 Days (4-Week Campaign)

1. Executive Summary & Campaign Vision

handicraft.layest.shop specializes in handcrafted, premium wooden pooja mandirs and traditional Indian art pieces. The primary objective of this SEO campaign is to position 5 high-converting, commercial-intent keywords in the **Top 3 Google Search Results** within 30 days.

Our strategy focuses exclusively on high-value buyers and homeowners living abroad who are searching for permanent, high-quality solid wood temples for their homes.

🎯 High-Intent Audience Strategy: Excluding Renters

Strategic Focus: Renters generally look for small, temporary, or cheap folding temples. To maximize ROI and target actual buyers/homeowners, our content, metadata, and keyword targeting emphasize *"Solid Wood"*, *"Custom Handcrafted"*, *"Luxury Home Shrine"*, and *"Permanent Home Mandir"*. Low-intent terms like *"cheap"*, *"rental"*, *"folding"*, and *"plastic mandir"* will be strictly excluded.
